Product Specification Sheet

Targus Mobile Power Inverter

Part #: PAPWR005U

Product Description:

The 90 Watt Targus Mobile Power Inverter is the perfect AC and DC power source for anyone who travels in an RV, car, airplane, or boat. The unique design of the power inverter allows you to lay the product flat on its side or inside a cup holder. A single AC outlet powers and/or charges a notebook, portable DVD player, game console and other AC accessories while the cigarette lighter socket provides DC power. "Plug-in" power eliminates the need for spare batteries and the built-in surge protection allows for safe usage during car start-up and shutdown. The Power Inverter also features a 36-inch, “no tangle” cord. So now, it's easy to power up wherever you go!

Product Features and Specifications:

- **Power on-the-go:** Using a standard cigarette lighter, power your notebook, DVD player, game console, digital camera, cell phone, CD player or other electronic device
- **Battery management system:** Built-in surge protection and auto shut off to prevent damage or draining your battery
- **Convenient design:** Fits in any standard cup holder or lays flat on any surface

Product Name	Targus Mobile Power Inverter	**Output power-**	90 watts
Model Number	PAPWR005U	**Input voltage-**	10.8V DC-15.8V DC
Street Cost	$59.99	**Input current-**	10A max
Includes:	Product information sheet	**Overload-**	Surge protected
Number/Outlets:	One (AC) + One (DC)	**Warranty**	Limited Two Year Warranty
Size	2.25”x 2.25”x 6”	**Weight**	15.7 oz
Output voltage-	120V AC, 60 Hz
